

TGA 300 Series

TGA
300 SERIES

High-Volume Cash Deposit Machines

The TOPGOOD TGA 300 Series combines high-capacity cash acceptance with flexible installation for secure, high-volume deposit environments.

Available as the TGA 350R through-the-wall model and the TGA 300R in-lobby model, the series is designed for banks, mobile network operators, agency banking networks, cash centres and major retailers. A globally proven cash acceptor supports up to 60 currencies, advanced counterfeit detection and serial-number recognition.

01 More Capacity

Up to 30,000-note capacity, with metal cash box, canvas cash bag or fabric cash bag configurations.

02 More Efficient

Processing speeds of up to 1,000 notes per minute keep busy deposit points moving.

03 More Secure

Counterfeit detection, serial-number recognition, safe options and door sensors strengthen end-to-end protection.

04 More Integrated

Configurable identification devices and a Windows-based platform support connection to banking and payment ecosystems.

05 More Flexible

Choose through-the-wall or in-lobby installation, with front- or rear-load service configurations.

06 More Accessible

A bright multi-touch display, guide lights and audio options support an intuitive user experience.

07 More Future-Ready

QR, barcode, NFC, fingerprint and EMV reader options allow the platform to evolve with new services.

TGA 350R

Through-the-wall design

TGA 300R

In-lobby design

CASH PROCESSING

- Counting speed: up to 1,000 notes/minute
- Up to 30,000-note capacity, with metal cash box, canvas cash bag or fabric cash bag configurations.
- Hopper capacity: up to 500 notes
- Batch capacity: 0-200 notes
- Escrow capacity: 1-100 notes
- Reject pocket: 30-50 notes

ENHANCED SECURITY

- Advanced counterfeit-note detection
- Serial-number and thickness detection
- UL 291 Level 1 safe
- Electronic safe lock
- Door-open sensors
- Security camera options
- Consumer-awareness mirror
- CR-steel enclosure

DISPLAY

- 17-inch LCD on TGA 300R and TGA 350R
- Multi-touch interface
- Vandal-resistant display

PROCESSOR & STORAGE

- Intel Core i5-7200U
- 8 GB RAM
- 128 GB SSD
- 1 TB HDD

IDENTIFICATION DEVICES

- Advanced barcode scanner
- QR-code reader
- NFC reader
- Fingerprint scanner
- EMV motorised, dip and/or contactless card-reader options

ACCESSIBILITY

- Compatible with standard height and reach requirements
- Audio options
- User-guidance lights

SERVICEABILITY

- Front- or rear-load configuration
- 10.1-inch service display

PLATFORM & POWER

- Microsoft Windows 10
- 12V / 24V DC power supply
